

Cindy Brown-Greer

I am writing to nominate Cindy Brown-Greer for the first Playhouse Great Friend to Families Award. Cindy currently serves as the solo Physical Therapist for the Exceptional Children's Department of Watauga County Schools. Cindy possesses great knowledge, clinical skill, passion and compassion as she serves children with motor needs ages 3-21 in Watauga County. Cindy has worked as a Physical therapist for the local school system and other local agencies in this area for over 30 years. She supports families of children with motor needs as they negotiate the special education system often connecting them with helpful resources, support and practical ideas for supporting their child's skill development. Cindy's experience and tireless dedication to children with special needs, their families and team members she works with is outstanding. She has the ability to translate very complex information to and from physicians, practitioners, of course families. Cindy is not only extremely knowledgeable about her field, she also has a wonderful sense of humor and immense patience. She serves as a role model to PT students, colleagues and community members.

Please accept my nomination of Cindy Brown Greer. Her skills with families are truly worthy of this award. She is deserving of the first Great Friend to Families Award.
